

TITAN 200Pro CUTTER

TITAN[®] 200Pro PROGRAMMABLE PAPER CUTTER

PRODUCT OVERVIEW

TITAN® 200Pro

PROGRAMMABLE PAPER CUTTER

The Titan 200Pro introduces a new generation of Challenge 20"(51cm) hydraulic powered paper cutters. Along with the 30-year market proven strength and accuracy of its predecessors, the powerfully advanced "Pro" control system brings state of the art technology to your print shop cutter. The 9"(23cm) color touch screen interface feels and responds like you would expect from your cell phone and the Pro software makes entering cut programs super simple. Just give it basic information pertaining to your job and it will take it from there. If programming a job still seems daunting, just walk through cutting your first sample sheet. The system automatically remembers your cut history as you cut your job so establishing the program is as easy as pushing the "save" button. The USA made Challenge Titan 200Pro is conveniently on wheels with lockable casters so you can also easily move the machine to where you need it or roll it aside when not in use.

Titan 200Pro FEATURES

- 9"(23cm) color touch screen interface that pivots to adjust to the operator's viewing height
- 20"(51cm) cutting width for full stacks up to 3.25"(82mm) high
- Maximum cut 20"(23cm) / minimum cut .5"(13mm) or 1-7/8"(4.8mm) with optional false clamp plate
- Hydraulic clamping and cutting - 2,500 lbs. (1,125 daN) pressure
- Heavy duty construction - 800 pounds (363 kg) of steel, aluminum, and cast iron
- 8"x12" side tables included with light the beam version. Optional 12"x19" side tables for the tilt shield version.
- Adjustable clamp pressure from the touch screen, can also be programmed for each cut in a job
- Red LED optical cut line-light indicator to visually line up your cut
- Energy efficient - motor only runs during cut cycle
- 220 volt, 1-phase power provides fast cut cycles
- Optional false clamp plate - reduces clamping impressions on the paper
- Optional book-trimming false clamp plate - trim perfect bound books without damaging the spine
- 2-year factory parts warranty (excluding supply items)
- Includes two high speed steel blades, three cutting sticks, wood jogging aid, tool kit, knife change holder assembly, and operator's manual
- Manufactured in the USA

SAFETY FEATURES

- Tilt shield or optional light beam system protects the operator from the cutting area during the cut cycle, in accordance with latest ANSI and ISO safety standards
- Simultaneous and constant two hand cut button activation
- Wooden jogging aid (safer than plastic versions)
- Rear table cover encloses back table
- UL, cUL, and CE certified
